

16th Global Conference on Sustainable Manufacturing

October 2-4, 2018 | Lexington Convention Center, KY, USA

Industry Track on October 2, 2018

The Global Conference on Sustainable Manufacturing (GCSM) serves as a forum for academic and industry leaders working on topics related to sustainable manufacturing to share research advances and engage in intellectual dialogue. After more than a decade, this year the GCSM is being held in the United States. For the first time in GCSM’s history, industry-oriented sessions are being introduced at this year’s event.

Join us at the GCSM 2018—Industry Track!
