

17th Global Conference on Sustainable Manufacturing

Privacy Policy

Thank you for your interest in the Global Conference on Sustainable Manufacturing (GCSM). The use of the Internet pages of the GCSM is possible without any indication of personal data; however, if a data subject wants to register for the conference via our website, processing of personal data could become necessary. If the processing of personal data is necessary and there is no statutory basis for such processing, we generally obtain consent from the data subject.

The processing of personal data, such as the name, address, e-mail address, or telephone number of a data subject shall always be in line with the General Data Protection Regulation (GDPR), and in accordance with the country-specific data protection regulations applicable to the GCSM. By means of this data protection declaration, the GCSM would like to inform the general public of the nature, scope, and purpose of the personal data we collect, use and process. Furthermore, data subjects are informed, by means of this data protection declaration, of the rights to which they are entitled.

As the controller, the GCSM has implemented numerous technical and organizational measures to ensure the most complete protection of personal data processed through this website. However, Internet-based data transmissions may in principle have security gaps, so absolute protection may not be guaranteed. For this reason, every data subject is free to transfer personal data to us via alternative means, e.g. by telephone.

1. Definitions

The data protection declaration of the Global Conference on Sustainable Manufacturing is based on the terms used by the European legislator for the adoption of the General Data Protection Regulation (GDPR). Our data protection declaration should be legible and understandable for the general public, as well as our customers and business partners. To ensure this, we would like to first explain the terminology used.

In this data protection declaration, we use, inter alia, the following terms:

- **a) Personal data**

Personal data means any information relating to an identified or identifiable natural person (“data subject”). An identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or

to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural or social identity of that natural person.

- **b) Data subject**

Data subject is any identified or identifiable natural person, whose personal data is processed by the controller responsible for the processing.

- **c) Processing**

Processing is any operation or set of operations which is performed on personal data or on sets of personal data, whether or not by automated means, such as collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure or destruction.

- **d) Restriction of processing**

Restriction of processing is the marking of stored personal data with the aim of limiting their processing in the future.

- **e) Profiling**

Profiling means any form of automated processing of personal data consisting of the use of personal data to evaluate certain personal aspects relating to a natural person, in particular to analyse or predict aspects concerning that natural person's performance at work, economic situation, health, personal preferences, interests, reliability, behaviour, location or movements.

- **f) Pseudonymisation**

Pseudonymisation is the processing of personal data in such a manner that the personal data can no longer be attributed to a specific data subject without the use of additional information, provided that such additional information is kept separately and is subject to technical and organisational measures to ensure that the personal data are not attributed to an identified or identifiable natural person.

- **g) Controller or controller responsible for the processing**

Controller or controller responsible for the processing is the natural or legal person, public authority, agency or other body which, alone or jointly with others, determines the purposes and means of the processing of personal data; where the purposes and means of such processing are determined by Union or Member State law, the controller or the specific criteria for its nomination may be provided for by Union or Member State law.

- **h) Processor**

Processor is a natural or legal person, public authority, agency or other body which processes personal data on behalf of the controller.

- **i) Recipient**

Recipient is a natural or legal person, public authority, agency or another body, to which the personal data are disclosed, whether a third party or not. However, public authorities which may receive personal data in the framework of a particular inquiry in accordance with Union or Member State law shall not be regarded as recipients; the processing of those data by those public authorities shall be in compliance with the applicable data protection rules according to the purposes of the processing.

- **j) Third party**

Third party is a natural or legal person, public authority, agency or body other than the data subject, controller, processor and persons who, under the direct authority of the controller or processor, are authorised to process personal data.

- **k) Consent**

Consent of the data subject is any freely given, specific, informed and unambiguous indication of the data subject's wishes by which he or she, by a statement or by a clear affirmative action, signifies agreement to the processing of personal data relating to him or her.

2. Name and Address of the controller

Controller for the purposes of the General Data Protection Regulation (GDPR), other data protection laws applicable in Member states of the European Union and other provisions related to data protection is:

Global Conference on Sustainable Manufacturing

Technische Universität Berlin
Department for Assembly Technology and Factory Management
Office PTZ 2
Pascalstraße 8-9
10587 Berlin
Germany

Phone: +49 30 314-25117

Fax: +49 30 314-2275

Email: gcsm@mf.tu-berlin.de

Website: www.gcsm.eu

3. Cookies

The Internet pages of the GCSM don't use any first-party cookies. Cookies are text files that are stored in a computer system via an Internet browser.

Many Internet sites and servers use cookies. Many cookies contain a so-called cookie ID. A cookie ID is a unique identifier of the cookie. It consists of a character string through which Internet pages and servers can be assigned to the specific Internet browser in which the cookie was stored. This allows visited Internet sites and servers to differentiate the individual browser of the data subject from other Internet browsers that contain other cookies. A specific Internet browser can be recognized and identified using the unique cookie ID.

Cookies are used on the GCSM website during the payment process via the Stripe payment gateway of the conference registration (see chapter 10). The third-party cookies utilized on the GCSM website are:

- <https://checkout.stripe.com>
- <https://q.stripe.com>
- <https://js.stripe.com>
- <https://m.stripe.network>
- <https://m.stripe.com>

None of these cookies are stored unless the data subject decides to pay for the conference registration after accepting the GCSM registration and privacy policy. Already set cookies may be deleted at any time via an Internet browser or other software programs. This is possible in all popular Internet browsers. If the data subject deactivates the setting of cookies in the Internet browser used, paying for the conference registration may not be possible.

4. OpenStreetMap

We use the open source mapping tool "OpenStreetMap" (OSM) to display geo data. OSM does not store any user data, appointment data is only stored on our servers. [You can find more details at http://wiki.openstreetmap.org/wiki/Legal_FAQ](http://wiki.openstreetmap.org/wiki/Legal_FAQ)

5. Collection of general data and information

The website of the GCSM collects a series of general data and information when a data subject or automated system calls up the website. This general data and information are stored in the server log files. Collected may be (1) the browser types and versions used, (2) the operating system used by the accessing system, (3) the website from which an accessing system reaches our website (so-called referrers), (4) the sub-websites, (5) the date and time of access to the Internet site, (6) an Internet protocol address (IP address), (7) the Internet service provider of the accessing system, and (8) any other similar data and information that may be used in the event of attacks on our information technology systems.

When using these general data and information, no conclusions are drawn about the data subject. Rather, this information is needed to (1) deliver the content of our website correctly, (2) optimize the content of our website, (3) ensure the long-term viability of our information technology systems and website technology, and (4) provide law enforcement authorities with the information necessary for criminal prosecution in case of a cyber-attack. Therefore, the GCSM analyzes anonymously collected data and information statistically, with the aim of increasing the data protection and data security of our enterprise, and to ensure an optimal level of

protection for the personal data we process. The anonymous data of the server log files are stored separately from all personal data provided by a data subject.

6. Registration on our website

The data subject has the possibility to register on the website of the controller with the indication of personal data. Which personal data are transmitted to the controller is determined by the respective input mask used for the registration. The personal data entered by the data subject are collected and stored exclusively for internal use by the controller, and for his own purposes. The controller may request transfer to one or more processors that also uses personal data for an internal purpose which is attributable to the controller.

By registering on the website of the controller, the IP address—assigned by the Internet service provider (ISP) and used by the data subject—date, and time of the registration are also stored. The storage of this data takes place against the background that this is the only way to prevent the misuse of our services, and, if necessary, to make it possible to investigate committed offenses. Insofar, the storage of this data is necessary to secure the controller. This data is not passed on to third parties unless there is a statutory obligation to pass on the data, or if the transfer serves the aim of criminal prosecution.

The registration of the data subject, with the voluntary indication of personal data, is intended to enable the controller to offer the data subject contents or services that may only be offered to registered users due to the nature of the matter in question. Registered persons are free to change the personal data specified during the registration at any time, or to have them completely deleted from the data stock of the controller.

The data controller shall, at any time, provide information upon request to each data subject as to what personal data are stored about the data subject. In addition, the data controller shall correct or erase personal data at the request or indication of the data subject, insofar as there are no statutory storage obligations. The entirety of the controller's employees are available to the data subject in this respect as contact persons.

7. Contact possibility via the website

The website of the Global Conference on Sustainable Manufacturing contains information that enables a quick electronic contact to our enterprise, as well as direct communication with us, which also includes a general address of the so-called electronic mail (e-mail address). If a data subject contacts the controller by e-mail or via a contact form, the personal data transmitted by the data subject are automatically stored. Such personal data transmitted on a voluntary basis by a data subject to the data controller are stored for the purpose of processing or contacting the data subject. There is no transfer of this personal data to third parties.

8. Routine erasure and blocking of personal data

The data controller shall process and store the personal data of the data subject only for the period necessary to achieve the purpose of storage, or as far as this is

granted by the European legislator or other legislators in laws or regulations to which the controller is subject to.

If the storage purpose is not applicable, or if a storage period prescribed by the European legislator or another competent legislator expires, the personal data are routinely blocked or erased in accordance with legal requirements.

9. Rights of the data subject

- **a) Right of confirmation**

Each data subject shall have the right granted by the European legislator to obtain from the controller the confirmation as to whether or not personal data concerning him or her are being processed. If a data subject wishes to avail himself of this right of confirmation, he or she may, at any time, contact any employee of the controller.

- **b) Right of access**

Each data subject shall have the right granted by the European legislator to obtain from the controller free information about his or her personal data stored at any time and a copy of this information. Furthermore, the European directives and regulations grant the data subject access to the following information:

- the purposes of the processing;
- the categories of personal data concerned;
- the recipients or categories of recipients to whom the personal data have been or will be disclosed, in particular recipients in third countries or international organisations;
- where possible, the envisaged period for which the personal data will be stored, or, if not possible, the criteria used to determine that period;
- the existence of the right to request from the controller rectification or erasure of personal data, or restriction of processing of personal data concerning the data subject, or to object to such processing;
- the existence of the right to lodge a complaint with a supervisory authority;
- where the personal data are not collected from the data subject, any available information as to their source;
- the existence of automated decision-making, including profiling, referred to in Article 22(1) and (4) of the GDPR and, at least in those cases, meaningful information about the logic involved, as well as the significance and envisaged consequences of such processing for the data subject.

Furthermore, the data subject shall have a right to obtain information as to whether personal data are transferred to a third country or to an international organisation. Where this is the case, the data subject shall have the right to be informed of the appropriate safeguards relating to the transfer.

If a data subject wishes to avail himself of this right of access, he or she may, at any time, contact any employee of the controller.

- **c) Right to rectification**

Each data subject shall have the right granted by the European legislator to obtain from the controller without undue delay the rectification of inaccurate personal data concerning him or her. Taking into account the purposes of the processing, the data subject shall have the right to have incomplete personal data completed, including by means of providing a supplementary statement.

If a data subject wishes to exercise this right to rectification, he or she may, at any time, contact any employee of the controller.

- **d) Right to erasure (Right to be forgotten)**

Each data subject shall have the right granted by the European legislator to obtain from the controller the erasure of personal data concerning him or her without undue delay, and the controller shall have the obligation to erase personal data without undue delay where one of the following grounds applies, as long as the processing is not necessary:

- The personal data are no longer necessary in relation to the purposes for which they were collected or otherwise processed.
- The data subject withdraws consent to which the processing is based according to point (a) of Article 6(1) of the GDPR, or point (a) of Article 9(2) of the GDPR, and where there is no other legal ground for the processing.
- The data subject objects to the processing pursuant to Article 21(1) of the GDPR and there are no overriding legitimate grounds for the processing, or the data subject objects to the processing pursuant to Article 21(2) of the GDPR.
- The personal data have been unlawfully processed.
- The personal data must be erased for compliance with a legal obligation in Union or Member State law to which the controller is subject.
- The personal data have been collected in relation to the offer of information society services referred to in Article 8(1) of the GDPR.

If one of the aforementioned reasons applies, and a data subject wishes to request the erasure of personal data stored by the Global Conference on Sustainable Manufacturing, he or she may, at any time, contact any employee of the controller. An employee of Global Conference on Sustainable Manufacturing shall promptly ensure that the erasure request is complied with immediately.

Where the controller has made personal data public and is obliged pursuant to Article 17(1) to erase the personal data, the controller, taking account of available technology and the cost of implementation, shall take reasonable steps, including technical measures, to inform other controllers processing the personal data that the data subject has requested erasure by such controllers

of any links to, or copy or replication of, those personal data, as far as processing is not required. An employees of the Global Conference on Sustainable Manufacturing will arrange the necessary measures in individual cases.

- **e) Right of restriction of processing**

Each data subject shall have the right granted by the European legislator to obtain from the controller restriction of processing where one of the following applies:

- The accuracy of the personal data is contested by the data subject, for a period enabling the controller to verify the accuracy of the personal data.
- The processing is unlawful and the data subject opposes the erasure of the personal data and requests instead the restriction of their use instead.
- The controller no longer needs the personal data for the purposes of the processing, but they are required by the data subject for the establishment, exercise or defence of legal claims.
- The data subject has objected to processing pursuant to Article 21(1) of the GDPR pending the verification whether the legitimate grounds of the controller override those of the data subject.

If one of the aforementioned conditions is met, and a data subject wishes to request the restriction of the processing of personal data stored by the GCSM, he or she may at any time contact any employee of the controller. The employee of the GCSM will arrange the restriction of the processing.

- **f) Right to data portability**

Each data subject shall have the right granted by the European legislator, to receive the personal data concerning him or her, which was provided to a controller, in a structured, commonly used and machine-readable format. He or she shall have the right to transmit those data to another controller without hindrance from the controller to which the personal data have been provided, as long as the processing is based on consent pursuant to point (a) of Article 6(1) of the GDPR or point (a) of Article 9(2) of the GDPR, or on a contract pursuant to point (b) of Article 6(1) of the GDPR, and the processing is carried out by automated means, as long as the processing is not necessary for the performance of a task carried out in the public interest or in the exercise of official authority vested in the controller.

Furthermore, in exercising his or her right to data portability pursuant to Article 20(1) of the GDPR, the data subject shall have the right to have personal data transmitted directly from one controller to another, where technically feasible and when doing so does not adversely affect the rights and freedoms of others.

In order to assert the right to data portability, the data subject may at any time contact any employee of the GCSM.

- **g) Right to object**

Each data subject shall have the right granted by the European legislator to object, on grounds relating to his or her particular situation, at any time, to processing of personal data concerning him or her, which is based on point (e) or (f) of Article 6(1) of the GDPR. This also applies to profiling based on these provisions.

The GCSM shall no longer process the personal data in the event of the objection, unless we can demonstrate compelling legitimate grounds for the processing which override the interests, rights and freedoms of the data subject, or for the establishment, exercise or defence of legal claims.

If the GCSM processes personal data for direct marketing purposes, the data subject shall have the right to object at any time to processing of personal data concerning him or her for such marketing. This applies to profiling to the extent that it is related to such direct marketing. If the data subject objects to the Global Conference on Sustainable Manufacturing to the processing for direct marketing purposes, the GCSM will no longer process the personal data for these purposes.

In addition, the data subject has the right, on grounds relating to his or her particular situation, to object to processing of personal data concerning him or her by the GCSM for scientific or historical research purposes, or for statistical purposes pursuant to Article 89(1) of the GDPR, unless the processing is necessary for the performance of a task carried out for reasons of public interest.

In order to exercise the right to object, the data subject may contact any employee of the GCSM. In addition, the data subject is free in the context of the use of information society services, and notwithstanding Directive 2002/58/EC, to use his or her right to object by automated means using technical specifications.

- **h) Automated individual decision-making, including profiling**

Each data subject shall have the right granted by the European legislator not to be subject to a decision based solely on automated processing, including profiling, which produces legal effects concerning him or her, or similarly significantly affects him or her, as long as the decision (1) is not necessary for entering into, or the performance of, a contract between the data subject and a data controller, or (2) is not authorised by Union or Member State law to which the controller is subject and which also lays down suitable measures to safeguard the data subject's rights and freedoms and legitimate interests, or (3) is not based on the data subject's explicit consent.

If the decision (1) is necessary for entering into, or the performance of, a contract between the data subject and a data controller, or (2) it is based on the data subject's explicit consent, the Global Conference on Sustainable Manufacturing shall implement suitable measures to safeguard the data subject's rights and freedoms and legitimate interests, at least the right to

obtain human intervention on the part of the controller, to express his or her point of view and contest the decision.

If the data subject wishes to exercise the rights concerning automated individual decision-making, he or she may, at any time, contact any employee of the Global Conference on Sustainable Manufacturing.

- **i) Right to withdraw data protection consent**

Each data subject shall have the right granted by the European legislator to withdraw his or her consent to processing of his or her personal data at any time.

If the data subject wishes to exercise the right to withdraw the consent, he or she may, at any time, contact any employee of the GCSM.

10. Data protection provisions about the application and use of Jetpack for WordPress

On this website, the controller has integrated Jetpack. Jetpack is a WordPress plug-in, which provides additional features to the operator of a website based on WordPress. Jetpack allows the Internet site operator, inter alia, an overview of the visitors of the site. By displaying related posts and publications, or the ability to share content on the page, it is also possible to increase visitor numbers. In addition, security features are integrated into Jetpack, so a Jetpack-using site is better protected against brute-force attacks. Jetpack also optimizes and accelerates the loading of images on the website.

The operating company of Jetpack Plug-Ins for WordPress is the Aut O'Mattic A8C Ireland Ltd., Business Centre, No.1 Lower Mayor Street, International Financial Services Centre, Dublin 1, Ireland.

Jetpack sets a cookie on the information technology system used by the data subject. The definition of cookies is explained above. With each call-up to one of the individual pages of this Internet site, which is operated by the controller and on which a Jetpack component was integrated, the Internet browser on the information technology system of the data subject is automatically prompted to submit data through the Jetpack component for analysis purposes to Automattic. During the course of this technical procedure Automattic receives data that is used to create an overview of website visits. The data obtained in this way serves the analysis of the behaviour of the data subject, which has access to the Internet page of the controller and is analyzed with the aim to optimize the website. The data collected through the Jetpack component is not used to identify the data subject without a prior obtaining of a separate express consent of the data subject. The data comes also to the notice of Quantcast. Quantcast uses the data for the same purposes as Automattic.

The data subject can, as stated above, prevent the setting of cookies through our website at any time by means of a corresponding adjustment of the web browser used and thus permanently deny the setting of cookies. Such an adjustment to the Internet browser used would also prevent Automattic/Quantcast from setting a cookie on the information technology system of the data subject. In addition, cookies already

in use by Automattic/Quantcast may be deleted at any time via a web browser or other software programs.

In addition, the data subject has the possibility of objecting to a collection of data relating to a use of this Internet site that are generated by the Jetpack cookie as well as the processing of these data by Automattic/Quantcast and the chance to preclude any such. For this purpose, the data subject must press the 'opt-out' button under the link <https://www.quantcast.com/opt-out/> which sets an opt-out cookie. The opt-out cookie set with this purpose is placed on the information technology system used by the data subject. If the cookies are deleted on the system of the data subject, then the data subject must call up the link again and set a new opt-out cookie.

With the setting of the opt-out cookie, however, the possibility exists that the websites of the controller are not fully usable anymore by the data subject.

The applicable data protection provisions of Automattic may be accessed under <https://automattic.com/privacy/>. The applicable data protection provisions of Quantcast can be accessed under <https://www.quantcast.com/privacy/>.

11. Payment Method: Data protection provisions about the use of Stripe as a payment processor

On this website, the controller has integrated components of Stripe. Stripe is an online payment service provider. Payments are processed via so-called Stripe accounts, which represent virtual private or business accounts. Stripe is also able to process virtual payments through credit cards when a user does not have a Stripe account. A Stripe account is managed via an e-mail address, which is why there are no classic account numbers. Stripe makes it possible to trigger online payments to third parties or to receive payments. Stripe also accepts trustee functions and offers buyer protection services.

The operating company of Stripe is

Stripe
510 Townsend Street
San Francisco, CA 94103, USA

If the data subject chooses to register for the conference and to pay through credit card with the Stripe payment gateway, we automatically transmit the data of the data subject to Stripe. By using this payment option, the data subject agrees to the transfer of personal data required for payment processing.

The personal data transmitted to Stripe is usually first name, last name, address, email address, IP address, telephone number, mobile phone number, or other data necessary for payment processing. The processing of the purchase contract also requires such personal data, which are in connection with the respective order.

The transmission of the data is aimed at payment processing and fraud prevention. The controller will transfer personal data to Stripe, in particular, if a legitimate interest in the transmission is given. The personal data exchanged between Stripe and the controller for the processing of the data will be transmitted by Stripe to economic

credit agencies. This transmission is intended for identity and creditworthiness checks.

Stripe will, if necessary, pass on personal data to affiliates and service providers or subcontractors to the extent that this is necessary to fulfill contractual obligations or for data to be processed in the order.

The data subject has the possibility to revoke consent for the handling of personal data at any time from Stripe. A revocation shall not have any effect on personal data which must be processed, used or transmitted in accordance with (contractual) payment processing.

The applicable data protection provisions of Stripe may be retrieved under <https://stripe.com/de/privacy>.

12. Legal basis for the processing

Art. 6(1) lit. a GDPR serves as the legal basis for processing operations for which we obtain consent for a specific processing purpose. If the processing of personal data is necessary for the performance of a contract to which the data subject is party, as is the case, for example, when processing operations are necessary for the supply of goods or to provide any other service, the processing is based on Article 6(1) lit. b GDPR. The same applies to such processing operations which are necessary for carrying out pre-contractual measures, for example in the case of inquiries concerning our products or services. Is our company subject to a legal obligation by which processing of personal data is required, such as for the fulfillment of tax obligations, the processing is based on Art. 6(1) lit. c GDPR. In rare cases, the processing of personal data may be necessary to protect the vital interests of the data subject or of another natural person. This would be the case, for example, if a visitor were injured in our company and his name, age, health insurance data or other vital information would have to be passed on to a doctor, hospital or other third party. Then the processing would be based on Art. 6(1) lit. d GDPR. Finally, processing operations could be based on Article 6(1) lit. f GDPR. This legal basis is used for processing operations which are not covered by any of the abovementioned legal grounds, if processing is necessary for the purposes of the legitimate interests pursued by our company or by a third party, except where such interests are overridden by the interests or fundamental rights and freedoms of the data subject which require protection of personal data. Such processing operations are particularly permissible because they have been specifically mentioned by the European legislator. He considered that a legitimate interest could be assumed if the data subject is a client of the controller (Recital 47 Sentence 2 GDPR).

13. The legitimate interests pursued by the controller or by a third party

Where the processing of personal data is based on Article 6(1) lit. f GDPR our legitimate interest is to carry out our business in favor of the well-being of all our employees and the shareholders.

14. Period for which the personal data will be stored

The criteria used to determine the period of storage of personal data is the respective statutory retention period. After expiration of that period, the corresponding data is routinely deleted, as long as it is no longer necessary for the fulfillment of the contract or the initiation of a contract.

15. Provision of personal data as statutory or contractual requirement; Requirement necessary to enter into a contract; Obligation of the data subject to provide the personal data; possible consequences of failure to provide such data

We clarify that the provision of personal data is partly required by law (e.g. tax regulations) or can also result from contractual provisions (e.g. information on the contractual partner). Sometimes it may be necessary to conclude a contract that the data subject provides us with personal data, which must subsequently be processed by us. The data subject is, for example, obliged to provide us with personal data when our company signs a contract with him or her. The non-provision of the personal data would have the consequence that the contract with the data subject could not be concluded. Before personal data is provided by the data subject, the data subject must contact any employee. The employee clarifies to the data subject whether the provision of the personal data is required by law or contract or is necessary for the conclusion of the contract, whether there is an obligation to provide the personal data and the consequences of non-provision of the personal data.

16. Existence of automated decision-making

We do not use automatic decision-making or profiling.

This Privacy Policy has been generated by the Privacy Policy Generator of the [DGD - Your External DPO](#) that was developed in cooperation with [German Lawyers](#) from WILDE BEUGER SOLMECKE, Cologne.
