

7th Global Conference on Sustainable Manufacturing

Sustainable Product Development
and Life Cycle Engineering

December 2 – 4, 2009

at Indian Institute of Technology Madras

Patron

Prof. M. S. Ananth

IIT Madras, India

Chairman

Prof. Dr.-Ing. G. Seliger

Berlin Inst. of Technology, Germany

Co-Chairmen

Prof. Dr. M. S. Shunmugam

IIT Madras, India

Prof. Dr. I.S. Jawahir

University of Kentucky, USA

Deadlines

September 15th, 2009 - Full paper submission

October 15th, 2009 - Notification of paper acceptance

October 31st, 2009 – Submission of final paper

November 15th, 2009 - Registration for conference

Objective

Non-renewable materials can no longer be disposed once humankind's ever increasing needs cannot be fulfilled anymore due to limited resources. Reuse and recycling become inevitable requirements for product and process design. Renewable resources must not be consumed in quantities higher than can be regained. New technologies have to be developed and applied for a Sustainable Product Development and Life Cycle Engineering to fulfill the needs of humankind, protecting public health, welfare, and environment.

The conference is expected to attract representatives from science and industry from several regions of the world. It serves as a forum for research institutes and industrial partners related to the area of sustainable manufacturing. It enables them to get an overview on today's challenges and the national and international research and development activities to meet those. Discussions and the sharing of experiences are highly welcomed. The conference offers keynote speeches, panel discussions, parallel sessions and a poster forum.

This seventh global conference shall be a follow-up to previous conferences held at Pusan National University, Korea in October 2008, at Rochester Institute of Technology - Rochester, NY, USA in September 2007, at University of Sao Paulo, Brazil in October 2006, at Jiao Tong University, Shanghai, China in October 2005, at Technical University, Berlin, Germany in September 2004, as well as the Environmentally Benign Manufacturing (EBM) workshop held in Birmingham, Alabama, USA, in January 2003.

Topics

- Sustainable Manufacturing Systems
- Sustainable Design
- Reverse Logistics
- Remanufacturing and Recycling
- Life Cycle Engineering and Assessment
- Energy Efficiency
- Emission Reduction
- Renewable Energy
- Business Models for Sustainable Development
- Society, Technology and Environmental Policy
- Engineering Education

Registration Details

Regular registration fee covers meals for all three days as indicated in the agenda, as well as the second day's banquet and conference proceedings.

Student registration fee does not include second day's banquet and conference proceedings.

International Steering Committee

Prof. Dr. E. Abele

Technical University of Darmstadt, Germany

Prof. Dr. A. Bernard

IRCCyN – Ecole Centrale de Nantes, France

Prof. Dr. D. Brissaud

University of Grenoble, France

Prof. Dr. G. Byrne

University College Dublin, Ireland

Prof. Dr. Wang Chentao

Shanghai Jiao Tong University, China

Prof. Dr. D. Dornfeld

University of California, USA

Prof. Dr. Guanghong Duan

Tsinghua University, China

Prof. Dr. J. Duflou

Katholieke University Leuven, Belgium

Prof. Dr. D. Djurdanovic

University of Austin, USA

Prof. Dr. P. Gu

University of Calgary, Canada

Prof. Dr. M. Hauschild

Technical University of Denmark

Prof. Dr. K. K. B. Hon

University of Liverpool, UK

Prof. Dr. F. J. A. M. van Houten

University of Twente, Netherlands

Prof. Dr. J. Jeswiet

Queen's University, Canada

Prof. Dr. F. Jovane

Politecnico di Milano, Italy

Prof. Dr. S. Kara

Univ. of New South Wales, Australia

Prof. Dr. J. Kim

Seoul National University, Korea

Prof. Dr. F. Kimura

University of Tokyo, Japan

Prof. Dr. T. Kjellberg

Royal Institute of Technology, Sweden

Prof. Dr. F. Klocke

RWTH Aachen, Germany

Prof. Dr. T. K. Lien

Norwegian Univ. of Science and Technology, Norway

Prof. Dr. N. Nasr

Rochester Institute of Technology, USA

Prof. Dr. P. Nyhuis

Leibniz University of Hannover, Germany

Prof. Dr. W. H. Elmaraghy

University of Windsor, Canada

Prof. Dr. H. Meier

Ruhr-University, Germany

Prof. Dr. Chen Ming

Shanghai Jiao Tong University, China

Prof. Dr.-Ing. H.S. Mok

Pusan National University, South Korea

Prof. Dr.-Eng. J. Oliveira

University of São Paulo, Brazil

Prof. Dr. A. Ometto

University of São Paulo, Brazil

Prof. Dr. R. Roy

Cranfield University, UK

Prof. Dr. H. Rozenfeld

University of São Paulo, Brazil

Prof. Dr. M. Santochi

University of Pisa, Italy

Prof. Dr. S. Skerlos

University of Michigan, USA

Prof. Dr. J. W. Sutherland

Michigan Tech. University, USA

Prof. Dr. S. Takata

Waseda University, Japan

Prof. Dr. T. Tolio

Politecnico di Milano, Italy

Prof. Dr. T. Tomiyama

Delft University of Technology, Netherlands

Prof. Dr. M. Tseng

Hong Kong University, Hong Kong

Prof. Dr. K. Ueda

The University of Tokyo, Japan

Prof. Dr. V. C. Venkatesh

University of Nevada, USA

Prof. Dr. A. Weckenmann

University Erlangen-Nürnberg, Germany

Prof. Dr. R. Züst

Swiss Institute for Systems Engineering, Switzerland

Submission Information

Interested authors should submit full papers (maximum 6 pages) in English, as a PDF or MS Word file. Guidelines to prepare the full papers is available in MS Word format in the conference website. These papers should be uploaded into the website for review and comments by the International Committee. English is the official conference language.

Publication

All accepted papers will be published in the conference proceedings, which will be available at the conference. At least one author must be registered and pay the registration fee in order for the papers to be published in the conference proceedings. Selected papers in their expanded versions will be fully reviewed and considered for possible publication in the International Journal of Sustainable Manufacturing.

Conference Venue

The Indian Institute of Technology will be hosting the Conference on December 2nd – 4th, 2009 at the ICSR - Center for Industrial Consultancy and Sponsored Research, IIT Madras, Chennai.

Indian Institute of Technology Madras (IITM) is one among the premier institutions of national importance in higher technical education, basic and applied research in India. It was established in 1959 by the government of India with assistance from the German government. The institute has fifteen departments and advanced research centers in various disciplines of engineering, sciences, humanities and management, with nearly 100 specialized laboratories. IIT Madras is a residential institution with nearly 460 faculty members, 4500 students and 1250 administrative and supporting staff. It is a self-contained campus, located in the metropolitan city of Chennai, in a beautiful wooded land of about 250 hectares with flora and fauna.

Chennai is one of the four metropolitan cities of India and is often called the cultural capital of India for its deep rooted traditions and long range heritage. Spread over 200 square kilometers with the Bay of Bengal on the East, the city is the Southern gateway to India and is well connected by air, rail and road.
